

List of works of Gábor Tusnádý

Closing date March 18, 2016.

(1966)

[1] G.Tusnádý: On rearrangements of infinite series, *Annales Universitatis Scientiarum Budapestinensis de Rolando Eötvös Nominatae* 9(1966) 121-126

[2] B.Fontányi Ágota-Tusnádý Gábor: A vasúti vasbetonaljak próbavételi tervének matematikai statisztikai kérdései (Mathematical-statistical questions of plan for sampling of reinforced concrete railway sleepers) *Szabványügyi Közlemények* 18/9(1966) 385-389

(1967)

[3] G.Katona-G.Tusnádý: The principle of conservation of entropy in a noiseless channel, *Studia Scientiarum Mathematicarum Hungarica* 2/1-2(1967) 29-35

[4] G.Tusnádý: On the sequence of generalized partial sums of a series, *Studia Scientiarum Mathematicarum Hungarica* 2/3-4(1967) 431-434

[5] I.Csiszár-G.Katona-G.Tusnádý: Information sources with different cost scales and the principle of conservation of entropy, *Proceedings of the Colloquium on Information Theory organized by the Bolyai Mathematical Society, Debrecen(Hungary)* 1967, 101-128

[6] A.Czeizel-G.Tusnádý-Z.Domány-K.Borsy: Effects of influenza on pregnancy, *The Lancet* September 2(1967) 517

(1968)

[7] G.Tusnádý: On the OC-function of the acceptance plan designed for a Pólya process of defective items, *Studies in Mathematical Statistics, Theory and Applications*, Akadémiai Kiadó 1968, 193-199

[8] Monáth Lajos-Tusnádý Gábor: A villamosenergia fogyasztás véletlen ingadozásainak matematikai leírása (The mathematical description of the occasional load variations of the electric power consumption) *Elektrotechnika* 61/5-6(1968) 209-214

[9] Czeizel Endre-Tusnádý Gábor-Domány Zoltán: Az influenzajárványok hatása a születésszámra (The influence of the influenza epidemics on the number of live births) *Demográfia* 11/2(1968) 231-239

[10] M.Rupp-G.Tusnády: Appendix to the paper by L.Vértés "Rates of evolution in palaeolithic technology", Acta Archaeologica Academiae Scientiarum Hungaricae 20(1968) 17-19

[11] G.Tusnády: Remark on K.Sarkadi's paper entitled: "Estimation after selection", Studia Scientiarum Mathematicarum Hungarica 3(1968) 381-382

[12] G.Rontó-G.Tusnády: On the intracellular phage development, Proceedings of the fifth Conference on Biophysics, Acta Biochimica et Biophysica Academiae Scientiarum Hungaricae 3(1968) 457

(1969)

[13] I.Csiszár-G.Katona-G.Tusnády: Information sources with different cost scales and the principle of conservation of entropy, Zeitschrifts für Warscheinlichkeitstheorie und verwandte Gebiete, 12(1969) 185-222

[14] Gy.Rontó-G.Tusnády: Modellvorstellungen zur Intrazellulären phagenentwicklung, Studia Biophysica 14(1969) 99-105

[15] Gy.Rontó-G.Tusnády: On the intrabacterial phage development, Acta Biochimica et Biophysica Academiae Scientiarum Hungaricae 4/1(1969) 89-97

[16] Czeizel Endre-Tusnády Gábor-Domány Zoltán: A családtervezés demográfiai következményeinek genetikai vonatkozásai, (Genetic aspects of the demographic consequences of family planning) Orvosi Hetilap 110(1969) 2993-3000

[17] Tusnády Gábor-Roknich György: A matematikai statisztika egy speciális alkalmazása a mérnöki gyakorlatban: a gammahatvány eloszlás, (An application of mathematical statistical methods in the practice of engineers: the gammapower distribution) Mélyépítéstudományi Szemle 19/10(1969) 472-478

[18] Tusnády Gábor: A multifaktoriális öröklődés (The multifactorial heritability) Matematikai Lapok 20/3-4(1969) 389-396

(1970)

[19] Czeizel Endre-Bognár Zoltán-Tusnády Gábor-Révész Pál: A születési súly és a kis súlyú újszülöttek (koraszületések) gyakoriságának alakulása hazánkban (Weight of the newborn and the frequency of little weight newborn (premature births) in Hungary) Orvosi Hetilap 111/3(1970) 145-151

[20] A.Czeizel-Z.Bognár-G.Tusnádý-P.Révész: Changes in the frequency of low-weight births in Hungary, *British Journal of Preventive and Social Medicine* 24(1970) 146-153

[21] Katona Gyula-Tusnádý Gábor: Rényi Alfréd pedagógiai munkássága (Pedagogical work of A.Rényi) *Matematikai Lapok* 21/3-4(1970) 243-244

(1971)

[22] A.Czeizel-G.Tusnádý: An epidemiologic study of cleft lip with or without cleft palate and posterior cleft palate in Hungary, *Human Heredity* 21(1971) 17-38

[23] Czeizel Endre-Tusnádý Gábor: Az ajakhasadék±szájpadhasadék gyakorisága és öröklődése (The inheritance and frequency of cleft lip and cleft palate) *Gyermekgyógyászat* 22(1971) 549-555

[24] Osztovcics Magda-Czeizel Endre-Révész Pál-Tusnádý Gábor: A budapesti populáció tenyér és ujj dermatoglypha mutatóinak "normál" értékei (Dermatoglyphic data in a sample of the population of Budapest) *Orvosi Hetilap* 112/45(1971) 2698-2702

[25] M.Osztovcics-E.Czeizel-P.Révész-G.Tusnádý: Dermatoglyphic data in a sample of the population of Budapest, *Acta Paediatrica Academiae Scientiarum Hungaricae* 12/2(1971) 183-198

[26] Czeizel Endre-Tusnádý Gábor: Az emberi öröklődéstan nagy felismerése: a "sok kis génes" öröklődés (The great discovery of genetics: inheritableness "through lots of small genes", *Természet Világa* 11(1971) 482-487

[27] T.Fodor-G.Tusnádý: Note on the statistical aspects of the proportion method for determining the drug-resistance of tubercle bacilli, *Scandinavian Journal of respiratory Diseases* 52(1971) 212-216

[28] L.Lugosi-G.Tusnádý-I.Csordás: Statistical control of viable units determination method of BCG vaccine, *International Symposium on BCG Vaccine, Frankfurt (Main) 1970, Synp. Series immunobiol. Standard* 17(1971) 233-238

(1972)

[29] E.Csáki-G.Tusnádý: On the number of intersections and the ballot theorem, *Periodica Mathematica Hungarica* 2/1-4(1972) 5-13

[30] A.Czeizel-G.Tusnádý: A family study on cleft lip with or without cleft palate and posterior cleft palate in Hungary, *Human Heredity* 22(1972) 405-416

[31] M.Ruda-L.Szeidl-G.Tusnady: Time series analysis on CDC 3300, Colloquia Mathematica Societatis Janos Bolyai 9. European Meeting of Statisticians, Budapest(Hungary) 1972, 661-665

(1973)

[32] G.Tusnady: An asymptotically efficient test for fitting a distribution, Periodica Mathematica Hungarica 3/1-2(1973) 157-165

[33] Tusnady Gabor: Egy kockajatekrol (On a play with cubics) A Matematika Tanıtasa 20, 25-27(1973) 75-80

[34] Boloni Istvan-Petruska Gyorgy-Tusnady Gabor: A kalapacsos daralok egyes gepuzemteni es elmeleti osszefuggesei (Some mathematical aspects of hammer mills) Akademiai Kiado 1973

[35] T.Fodor-G.Tusnady-I.Szabo: Comparative analysis of interlaboratory variation in drug sensitivity test for mycobacterium tuberculosis, Acta Microbiologica Academiae Scientiarum Hungaricae 20(1973) 7-9

[36] Fodor Tamas-Tusnady Gabor-Szabo Istvan: A Domjan-fele pipetta alkalmazasa a mycobacteriologiaban (The use of the "Domjan-pipette" in mycobacteriology) Tuberkolozis es Tudobetegsegyek 26(1973) 276-278

[37] Major Peter-Tusnady Gabor: Normalitas-vizsgalat (Testing for normality) MTA III. Osztaly Kozlemenyei 22(1973) 257-291

[38] J.Marosi-G.Tusnady: Point and interval estimates for the parameter in the case of censored Poisson distributed bacterium colonies, Bulletin of the International Statistical Institute, Proceedings of the 39th session, book 2 1973, 182-187

(1974)

[39] G.Tusnady: On testing density functions, Periodica Mathematica Hungarica 5/2(1974) 161-169

[40] G.Tusnady: On the updated maximum likelihood estimators, Studia Scientiarum Mathematicarum Hungarica 9(1974) 377-389

[41] Czeizel Endre-Tusnady Gabor-Vaczo Gyorgy-Vizkelety Tibor: A vele szulett csipoficam koreredete (Etiology of the congenital dislocation of the hip) Orvosi Hetilap 115(1974) 985-989

[42] J.Komlos-P.Major-G.Tusnady: Weak convergence and embedding, Colloquia Mathematica Societatis Janos Bolyai, 11. Limit Theorems of Probability Theory, Keszthely(Hungary) 1974, 149-165

(1975)

[43] J.Komlós-G.Tusnády: On sequences of "pure heads", *The Annals of Probability* 3(1975) 608-617

[44] J.Komlós-P.Major-G.Tusnády: An approximation of partial sums of independent RV's, and the sample DF. I-II, *Zeitschrifts für Warscheinlichkeitstheorie und verwandte Gebiete* 32(1975) 111-131, 34(1976) 33-58

[45] A.Czeizel-G.Tusnády: Some biological aspects of differential family planning, *Advances in the Biology of Human Populations*, Akadémiai Kiadó 1975, 193-203

[46] A.Czeizel-G.Tusnády-G.Vaczó-T.Vizkelety: The mechanism of genetic predisposition in congenital dislocation of the hip, *Journal of Medical Genetics* 12/2(1975) 121-124

[47] A.Czeizel-J.Szentpétery-G.Tusnády-T.Vizkelety: Two family studies on congenital dislocation of the hip after early orthopaedic screening in Hungary, *Journal of Medical Genetics* 12/2(1975) 125-130

[48] L.Lugosi-M.Drinoczy-G.Tusnady-P.Csaki-J.Marosi: Persistence of BCG strains in spleen of mice, *Acta Microbiologica Academiae Scientiarum Hungaricae* 22/3 (1975) 377-377

(1977)

[49] M.Csörgő-J.Komlós-P.Major-P.Révész-G.Tusnády: On the empirical process when parameters are estimated, *Transaction of the seventh Prague Conference on Information Theory, Statistical Decision Functions, Random Processes, 1974 European Meeting of Statisticians 1977*, 87-97

[50] G.Tusnády-A.Csiszár-L.Telegdi-A.Czeizel-M.Bolla: Statistical study of the multiple congenital malformations in Hungary, 1970-1975, *Transaction of the seventh Prague Conference on Information Theory, Statistical Decision Functions, Random Processes, 1974 European Meeting of Statisticians 1977*, 301-308

[51] J.Marosi-G.Tusnády: On the construction of confidence intervals for the expectation of a Poisson distribution on the basis of censored data, *Transaction of the seventh Prague Conference on Information Theory, Statistical Decision Functions, Random Processes, 1974 European Meeting of Statisticians 1977*, 347-352

[52] K.Sarkadi-G.Tusnády: Testing for normality and for the exponential distribution, *Proceedings of the fifth Conference on Probability Theory, Brasov 1977*, 99-118

[53] G.Tusnady: Strong invariance principles, *Recent Developments in Statistics*, Ed. J.Barra 1977, 289-300

[54] G.Tusnady: On asymptotically optimal tests, *The Annals of Statistics* 5/2(1977) 385-393

[55] G.Tusnady: A remark on the approximation of the sample DF in the multidimensional case, *Periodica Mathematica Hungarica* 8/1(1977) 53-55

[56] Czeizel Endre-Diosszilagy Gertrud-Domokos Gyorgyne-Dozsa Gyorgy-Eiben Otto-Gotze Arpad-Lanyine Engelmayer Agnes-Kismartoni Bea-Klujber Laszlo-Kovacs Judit-Madi Ferenc- Mehes Karoly-Metneki Julia-Ratay Csaba-Szabo Lajos-Szilagy Andras-Szondy Maria-Tusnady Gabor-Ziegenheim Olga: Az ertelmi fogyatekosok koreredeti vizsgalata II (On the etiology of mental subnormality) *Orvosi Hetilap* 118(1977) 559-565

[57] Tersztyanszky Tibor-Tusnady Gabor: Rendszerosszekottetesek maximalis terhelesenek becslese (An estimation of the maximum loads of interconnections) *Muszaki Tudomany* 53(1977)451-459

(1978)

[58] T.Tersztyanszky-G.Tusnady Gabor: An estimation of the maximum loads of interconnections, *Acta Technica Academiae Scientiarum Hungaricae* 86/1-2(1978) 147-156

[59] Czeizel Endre-Szabuka Margit-Bod Maria-Pazonyi Ilona-Vaczo Gyorgy-Tusnady Gabor: Az 1975-ben szulett vegtagredukcios rendellenesegek koreredeti elemzese (Etiological evaluation of babies with congenital limb reduction malformations born in 1975) *Orvosi Hetilap* 119(1978) 1025-1029

[60] Bognar Janosne-Nemetz Tibor-Tusnady Gabor: Ismerkedes a veletlennel (A first encounter with the probability) *A Matematika Tanitasa* 25(1978) 1-6

[61] Tusnady Gabor-Telegdi Laszlo-Czeizel Endre: Gyakori veleszulett rendellenesegek oroklodesmenetenek vizsgalata (On the genetic laws of common isolated congenital malformations) *Alkalmazott Matematikai Lapok* 4(1978) 1-25

(1979)

[62] Szekely Gabor-Tusnady Gabor: Altalanosított Fibonacci szamok es a "tiszta fejek" szama (Generalized Fibonacci numbers and number of "pure heads") *Matematikai Lapok* 27/1-2(1979) 147-151

[63] B.Petho-J.Tolna-G.Tusnady: Multi-trait – multi-method assesment of predictive variables of outcome in schizophrenia spectrum disorders. A nosological evaluation, *Journal of Psychiatric Research*, 15(1979) 163-174

[64] Tusnády Gábor: Mátrixok szinguláris felbontása (On the singular decomposition of matrices) *Alkalmazott Matematikai Lapok* 5(1979) 375-384

[65] G.Tusnády-A.Csiszár-L.Telegdi-A.Czeizel-M.Bolla: Statistical study of multiple congenital malformations in Hungary, 1970-76, *Transaction of the VIIIth Prague Conference on Information Theory* 1979, 301-308

[66] Bolla Mariann-Czeizel Endre-Telegdi László-Tusnády Gábor: Többszörös veleszületett rendellenességek statisztikai vizsgálata (Statistical study of multiple congenital malformations) *Számítástechnikai és kibernetikai módszerek az orvostudományban és a biológiában* 9., Ed. D.Muzka, I.Madarász, S.Székely 1979, 154-165

(1980)

[67] Bognár Jánosné-Nemetz Tibor-Tusnády Gábor: Ismerkedés a véletlennel (A first encounter with the probability) Tankönyvkiadó 1980

[68] R.Pick-G.Tusnády: Decomposition of mixtures, *Studia Scientiarum Mathematicarum Hungarica* 15(1980) 31-37

(1981)

[69] G.Tusnády-A.Czeizel-L.Telegdi: ML-fitting of multifactorial threshold models, *Periodica Mathematica Hungarica* 12/3(1981) 205-216

[70] A.Czeizel-Á.Bellyei-J.Kránicz-L.Mocsai-G.Tusnády: Confirmation of the multifactorial threshold model for congenital structural talipes equinovarus, *Journal of Medical Genetics* 18/2(1981) 99-100

[71] A.Czeizel-A.Pázsy-L.Telegdi-G.Tusnády: Classification and registration of multiple congenital abnormalities, *Acta Morphologica Acad. Sci. Hung.* 29/4(1981) 377-390

[72] Pethő Bertalan-Meggyes Katalin-Simonfalvi György-Tusnády Gábor: A demencia konstruktumairól a Wechsler-intelligencia-teszt demencia-index validálása kapcsán (On the constructions of dementia – the validity of several dementia indices of Wechsler's intelligence test) *Magyar Pszichológiai Szemle* 38(1981) 323-341

(1982)

[73] Tusnády Gábor: Keverékek felbontása (Decomposition of mixtures) *Matematikai Lapok* 30/1-3(1982) 59-67

[74] Rátay Csaba-Tusnády Gábor: A koraszülést befolyásoló tényezők vizsgálata a súlyhatár módosításával (Investigation of factors affecting premature birth with the modification of weight limit) *Demográfia* 25(1982) 510-519

[75] M.Bolla-G.Tusnady: A method for singular values decomposition of general real matrices, Proc. of 3rd Pannonian Symp. on Math. Stat., Visegrad, Hungary Ed. J.Mogyorodi, I.Vincze, W.Wertz 1982, 9-18

[76] M.Simonovits-L.Telegdi-G.Tusnady: Classification of objects via multidimensional scaling of variables, In: COMPSTAT 1982, 243-244

(1983)

[77] Biro Adrien-Bod Judit-Gara Ernone-Halmos Istvanne-Papp Andorne-Tusnady Gabor-Varga Katalin: Tanulok onallo feladatmegoldasa szamıtogep segıtsegev el (Teaching mathematics with a computer) A Matematika Tanıtasa 30(1983) 54-59

(1984)

[78] I.Csiszar-G.Tusnady: Information geometry and alternating minimization procedures, Statistics and Decisions, Supplement Issue 1(1984) 205-237

[79] M.Ajtai-J.Komlos-G.Tusnady: On optimal matchings, Combinatorica 4/4(1984) 259-264

[80] A.Czeizel-G.Tusnady: Aetiological studies of isolated common congenital abnormalities in Hungary, Akademiai Kiado 1984

(1985)

[81] Ratay Csaba-Tusnady Gabor: Veszelyeztetett gyermekek szocializaciojanak vizsgálata a csaladtıpusok kialakıtasaval (Investigation of the socialization of endangered children by clustering the family) A Kozponti Statisztikai Hivatal Nepesegtudomanyi Intezetenek Jelentesei 23(1985)

[82] Ratay Csaba-Tusnady Gabor: Demografiai valtozok szerepe a csaladi szocializacioban (The role of demographic variables in the socialization of the family) Demografia 28/1(1985) 82-97

[83] M.Bolla-G.Tusnady: The QRPS algorithm: A generalization of the QR algorithm for the singular values decomposition of rectangular matrices, Periodica Mathematica Hungarica 16/3(1985) 201-207

(1986)

[84] A.Czeizel-L.Telegdi-G.Tusnady: A multidimensional threshold model for multiple congenital abnormalities, Acta Paediatrica Hungarica 27/3(1986) 189-204
